MUSICAL MERCHANDISE!

IT IS NOT GENERALLY KNOWN that a First-class Plane (which means a STEINWAY or WEBLE) can be bought here in Honolini much cheaper than they can possibly be purchased in San Francisco. I will convince you of the truth of this statement if you wish to purchase a Fine Piano.
There are a few fine Planos here which have been pur-chased in San Francisco by the present owners at prices ranging from \$20 to \$72 above the price I would have charged them for the same Piano.
Query: Why do you buy your Pianos in San Fran-cisco? cisco?

Being Sole Agent for these Pianes in this Kingdom, and buying them direct of the Manufacturers for APOT CASEs, anables me to successfully compete with any large dealers on the Coast or ciscwhere. If you woull like a good American Piane for a less price I can funish you with the FISCHER CPAIGHT, which is

too well known here to require anything said by me in their favor. I can refer you to several parties that hav purchased them, including Oahn College, where you will find TWO in constant use. The New American

SEWING MACHINE. This Machine, which has been see IRMENSELY POP CLAR, has been very much improved within the last faw years, and is not only the most perfect working Machine, but is now a NOINELLESS Machine, and the lightest running of them all. Price, \$20 to \$55. Send for circular.

Having made arrangements to import direct from first hands, we are now prepared to offer the best oil in the market (150°) at favorable rates. This oil is brought from the East to San Francisco by railroad, in cars owned by the Company, and the great loss from leakage and deterioration is avoided. The oil is put up in Cans and Barrels. In the latter form it will be found a great convenience to families and retailers. The barrels are lined with heavy tin, and are provided with a convenient fancet. No leakage, and no charge for containers which are returnable when compty. We can also supply low test Oils, guaranteed to pass the Government Test, at reduced rates.

of a German protectorate over the Sandwich Islands. King Kalakana is alleged to be the originator of the scheme. We are not disposed to take much stock in the story. There are intrinsic improbabilities about it. In the first place there are no close relations existing between Hawaii and Germany, and secondly, there is nothing for the former to gain from such a connection. Trouble would almost cer-tainly grow out of an attempt to subject the islands to German influence. The American and British residents are numerous, and their respective Governments would be likely not Residence, No. 25 Alakea Street, only to resent, but resist a German protecto-rate. Your correspondent fell in with a late bird
the other evening—a stoat car driver. It was
late, a cold fog-laden wind was driving in
from the bay, and the driver's platform faced
the blast. It was a cheerless, diemal place,
and hour. Quoth the driver—"I am now only
a car driver, but can make money, have made it in thousands; left car driving and have had to come to it again: I know how to spe in stocks, am in it all the the time. I don't envy the early or the lucky birds, they are smarter than I, that's all. Why, I used to know Mark Hopkins in early days right well. He got shead, large, I only small. There's Stanford and Flood and Fair and Huntington, have made lots of money, smart men. I don't be-gradge them a cent of their gains; if they have been smarter than I, that's my misfortune; but I shall keep on trying, and some morning I shall be up early and make a whack." Prices-of refined sugars in this market are not of much interest to your planters. These "ripples," which agilate jobbers and irritate consumers, toss not your bark. There are times when from the grumble about the streets a stranger might believe that the great refiner feeds or withholds at will the crystal sweets to or from the multitude. At all events, the eater who calls upon his grocer knows not from the past what will befall him when he seeks to senew his supplies. It is all bean-tiful when sugar is down, down, down, but when it is up, up, up—" aye, there's the rub." But markets, like the weather, are "mighty unsartain," and when the scientists have re-
